7. OUR STORY

Our Original Purpose

Our Story

Founder: Boss HH

Helping More People Achieve Stable, Healthy and Worry-Free Skin

Good Products + A Good Team + An Altruistic Heart + Choosing the Right Path + Perseverance = The Formula for Success

We have always believed in running our business with positive energy. In both personal growth and business, we uphold the philosophy:

“No matter how tall a tree grows, it should never forget its roots. No matter how successful a person becomes, they should never forget those who helped them.”

Destiny is determined by heaven, but fortune is created by ourselves. As long as we continue working hard and constantly improve our character and professional abilities, we can gradually change our own destiny and improve the quality of life of others.

🏆 Super Health Brand

After years of dedication, we are honoured to have received a **Super Health Brand nomination**. This recognition has further strengthened our belief in continuing to create products that provide genuine value to our customers.

---

8. OUR PHILOSOPHY

Brand Philosophy

Our Philosophy

We Believe Everyone Deserves to Feel Confident and Have Healthy Skin

We discovered that many people struggle every day with dry and itchy skin, redness, peeling and stinging sensations, as well as recurring problems such as eczema, psoriasis and hives.

These skin problems not only cause frustration, but can also affect sleep and everyday life.

It is not that people do not want to improve their skin. Many have tried numerous methods, yet their skin problems continue to recur.

This does not mean that they have not used enough products, or that the products they used were not good enough or expensive enough. Instead, many people overlook something that comes into contact with their skin every single day — **their body wash**.

If the cleansing power is too strong, the skin can become even drier and tighter after showering, damaging the skin's protective barrier. As a result, the skin is unable to repair itself properly.

Some people can only continue relying on medicated creams, only for the problem to return once they stop using them.

This is exactly why we created **EzyBath** — with the hope of helping people improve recurring skin problems.

This is the original purpose behind EzyBath!

Throughout our journey, we have witnessed many genuine transformations.

Some people no longer lose sleep throughout the night because of dry and itchy skin. Others have seen their redness, peeling and stinging sensations gradually stabilise. Some have finally gained the confidence to wear the clothes they love again and rediscover their self-confidence.

Since the day EzyBath was founded, we have remained committed to our mission:

To provide everyone with safe, gentle and steroid-free products, while genuinely addressing skin problems from deep within the skin.

---

9. HOW EZYBATH REPAIRS THE SKIN

How It Repairs

How to Achieve Natural Repair with EzyBath

Use EzyBath consistently every day and witness the transformation!

Watch eczema and psoriasis subside and reveal truly healthy, smooth and radiant skin.

---

01 — Wash Away Irritants & Block External Attacks

Use EzyBath to wash away bacteria and dirt.

Bericos Ectoin instantly forms a transparent **24-hour protective barrier**.

---

02 — Release Nutrients for Instant Absorption

When the product is pumped out, **Tocopherol Vitamin E**, encapsulated using microencapsulation technology, instantly bursts open and releases fresh ingredients for rapid absorption into the skin.

---

03 — Penetrates Deep into the Skin to Target Inflammation at Its Root

No longer rely on oral medication or steroids.

Our patented ingredients penetrate deep into the skin to address the root cause of inflammation that damages cells with a burning sensation.

---

04 — 360° Hydration to Relieve Dryness & Itchiness

8D Octaplex releases 8 different molecular sizes, locking in moisture from the deeper layers of the skin while moisturising the surface.

No more dryness, cracking or stinging after showering.

---

05 — Improve Immunity & Repair Naturally

Replenish your skin with nutrients every day while showering and improve your skin's immunity.

Allow your skin to naturally repair itself, becoming smoother and brighter while saying goodbye to recurring skin problems.

---

★★★★★

Angel Tan

I previously used inexpensive body washes containing SLS/SLES, which damaged my skin's protective barrier. After using EzyBath for two weeks, the redness, swelling and peeling really

reduced significantly. My skin also no longer felt as dry, cracked or painful while showering, and the deeper layers of my skin finally stopped feeling like they were burning from inflammation.

★★★★★

Joshua Cheah

I used to experience recurring eczema and psoriasis very easily. Now, with Bericos Ectoin penetrating deep into the skin to reduce inflammation, I feel much more comfortable after consistently using EzyBath.

Most importantly, the 360° hydration from 8D Octaplex really gives me the feeling that my skin is no longer dry and itchy after showering.

★★★★★

Low Mei Ling

I bought it for my family to use together, and everyone said their skin felt very comfortable as the Vitamin E bursts open and absorbs into the skin, helping the skin repair itself.

I personally feel that my skin has become smoother and brighter as well, without having to rely on steroids.

I have already repurchased **7 bottles**.

11. FAQ

Frequently Asked Questions (FAQ)

Everything You Want to Know, Answered Here

1. Is the product safe and effective?

Absolutely safe. It has passed multiple national and international safety certifications, including **KKM, SGS, ISO and GMP**.

The product is currently available at major pharmacies across Malaysia.

---

2. How long does one bottle last?

One bottle of EzyBath contains **500ml** and can last approximately **1 to 1.5 months**, depending on individual usage and frequency.

---

3. Can EzyBath be used long-term?

Yes.

EzyBath is made from **100% natural ingredients** and contains no medicinal substances, prohibited ingredients, chemicals, etc.

Long-term use will not cause side effects or dependency.

Even after your skin has fully repaired, you can continue using EzyBath as usual to help your skin remain more stable, smoother, softer and brighter.

---

4. Can children use EzyBath?

The whole family can use it, regardless of whether they have skin problems.

It can be used by **children, elderly people, adults and pregnant women**.

EzyBath is made from **100% natural ingredients**.

---

5. Do I still need to take medication while using EzyBath?

If you are currently taking oral medication or applying medicated products, we do not recommend stopping them immediately.

This is because your skin may already be accustomed to the medication and may require it to keep the condition under control.

We recommend using EzyBath alongside your existing treatment first. Once your skin has stabilised, you can gradually reduce the amount of medication used according to your current condition.

---

6. What is the difference between EzyBath and ordinary body wash?

While showering, EzyBath penetrates deep into the skin to reduce inflammation and repair the damaged skin barrier.

It also forms a **24-hour protective barrier** on your skin, helping to block external bacteria and dirt while ensuring that your skin does not lose moisture.

---

7. What if EzyBath doesn't work for me?

We are confident in our product and provide a **30-Day Money-Back Guarantee if there are no results**, allowing you to purchase and try EzyBath with peace of mind.

Simply follow the applicable **Terms & Conditions** to process your refund.

---

8. How long does it take to see results?

Some customers have reported seeing a reduction in redness within **7 days**, while others may need to use EzyBath for approximately **1 month** before seeing noticeable improvements.

Results depend on each individual's absorption and repair capabilities.

A complete repair treatment normally consists of **3 bottles (Buy 2, Get 1 Free).**

---

9. Do you have a physical store?

Yes.

Our office is located in Penang:

119B Jalan Makloom, George Town, Penang, Malaysia

EzyBath is also available at selected partner pharmacies.

---

10. What is the shelf life?

The standard shelf life is **3 years**.

If the product has not been opened, it will not evaporate. We always provide our customers with products from the latest production batch.
